# KENT smart

## Non-electric, on-line UF storage water purifier

## KENT smart

### The most advanced UF purifier

KENT presents the all new KENT Smart UF Purifier specially designed to give your family pure, safe and tasty water. This innovative purifier has a 7 litre storage tank which makes dependence on electricity and usage of chemicals a thing of the past.

### KENT Smart Features

- KENT presents Non-electric, On-line UF storage water purifier designed to provide Safe and Tasty drinking water.
- Dependence on electricity and usage of chemicals to obtain pure drinking water are now problems of past.
- A superior state-of-the art UF water purification technology to give pure, healthy and fresh water.
- KENT Smart has a Hollow fiber UF Membrane with 0.01 Micron. The pores of UF membrane are so small that they do not allow bacteria, virus or cyst to pass through.
- This makes the drinking water healthy without use of any chemicals.
- The activated carbon filter removes bad taste and odour too, so that the water becomes healthy, safe and tasty.
- Works on principle of On-line purification. Needs no electricity.
- Wall mountable design - best suited for domestic purpose.
- Transparent, detachable tank for easy onsite cleaning.
- 7 Litres storage tank, provides water on demand.
- Fully automatic operation with auto-on and auto-off facility.
- Tamper proof UF membrane fused inside membrane housing.
- Push fit components for leak proof & maintenance free performance.
- ABS construction for corrosion free life span.
