

KENT WONDER

The power of KENT Technology

KENT WONDER is a water purifier ideally suited for homes and offices. It has a technical edge over others in its category as it comes with a double purification process of RO followed by UF, which removes even dissolved impurities from water. And its TDS Controller maintains natural minerals in water.

KENT Wonder Features

- Double purification by RO and UF ensures bacteria free and safe water while TDS controller retains essential minerals.
- The fine pores of Hollow fibre UF Membrane also remove Cyst, making the water completely pure.
- Easy to clean detachable tank.
- 7 litre capacity for storing purified water.
- Fully automatic operation with auto-on/off.
- LED indicators to display power, which indicates purification function is on or off.
- Push fit components for leak proof and maintenance free performance.
- Suitable for purifying water from all sources: Ground water, Overhead tank water or Tap water.

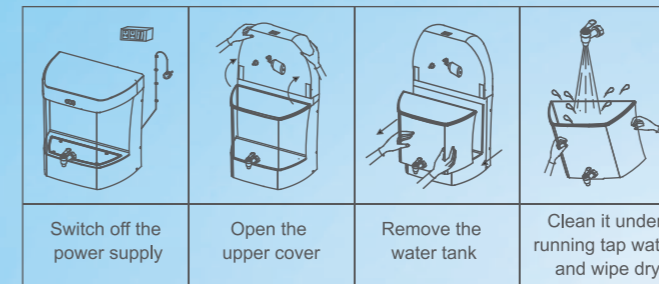

The KENT WONDER Advantage

- Provides Pure, Tasty and Healthy water.
- Sleek and aesthetic design.
- Double purification of RO followed by UF which removes even dissolved impurities.
- Membrane is warranted for a period of one year.
- Prompt after sales service with a wide service network pan India.

Applications

- Wall mounted/Counter top design best suited for domestic purpose.
- Suitable for all types of raw water from sources like borewell, overhead storage tanks, water tankers and even municipal taps.

Easy-to-clean detachable storage tank

Specifications

Product	: KENT WONDER
Application	: Suitable for all waters
Purification Capacity	: 15 litres Per Hour
Body Material	: ABS Engineering Plastic
Installation	: Wall Mounting / Table Top
Dimensions (mm)	: 390(L) X 285(W) X 440(H)
Weight	: 7.700 Kg
Purified water tank capacity	: 7 Litres
Inlet water pressure	: 0.3 Kg/cm ²
UF membrane Pore Size	: 0.01 Micron
Voltage output of SMPS	: 24 V DC
Mains Voltage	: 160-300 VAC / 50 Hz

FOR THE PUREST WATER ON EARTH
