A Legacy of
trust.
A promise of a
purier kitchen.

For over 25 years, KENT has been a quiet presence in Indian homes. In every purest glass of water poured. In every breath of pure air. In every pure meal lovingly prepared.

Over 1 crore families have chosen KENT simply for its technology. They have chosen it for what it makes them feel confident that what they bring into their homes is pure, safe, and worthy of the people they love.

That trust now enters the kitchen in a more complete sense. Because a meal cooked in cleaner air, over a flame that performs with precision, is not just nourishment. It is the oldest expression of care and it deserves to be completely pure.

Breathe Pure. Cook Efficiently.
Chimney & Gas Stove.

Next-Gen KENT Chimneys

Avoid Sweating, Avoid Fumes
Breathe Pure Air in Kitchen

Every kitchen deserves clean air that lets you cook comfortably and breathe freely. A chimney does more than remove smoke and odours—it helps reduce grease buildup, improves air quality, and keeps your kitchen cleaner with every meal. Built on KENT's trusted legacy of purity, KENT Chimneys combine powerful suction, intelligent technology, and elegant design to deliver effortless performance, energy-efficient operation, and a fresher cooking environment every day.

Gesture Controls

allows hands-free control with a simple wave for effortless operations

Filterless & Auto Clean Technology

experience hassle-free maintenance with I-Smart Auto Clean technology.

Powerful Suction

efficiently removes smoke, odour and cooking fumes.
