OVER BOTTLED WATER
KENT WATER FOUNTAIN

IT'S TIME TO GET FREEDOM FROM BOTTLED WATER

In most offices and public places, the water stored in plastic jars and bottles gets considered as pure drinking water. This practice has many issues like:

- Quality of water may be questionable
- Quantity may be questioned
- Replacing the water jars is a tedious process
- The water jars prove to be very expensive in the long run
- Creating plastic waste in this world

PRESENTING

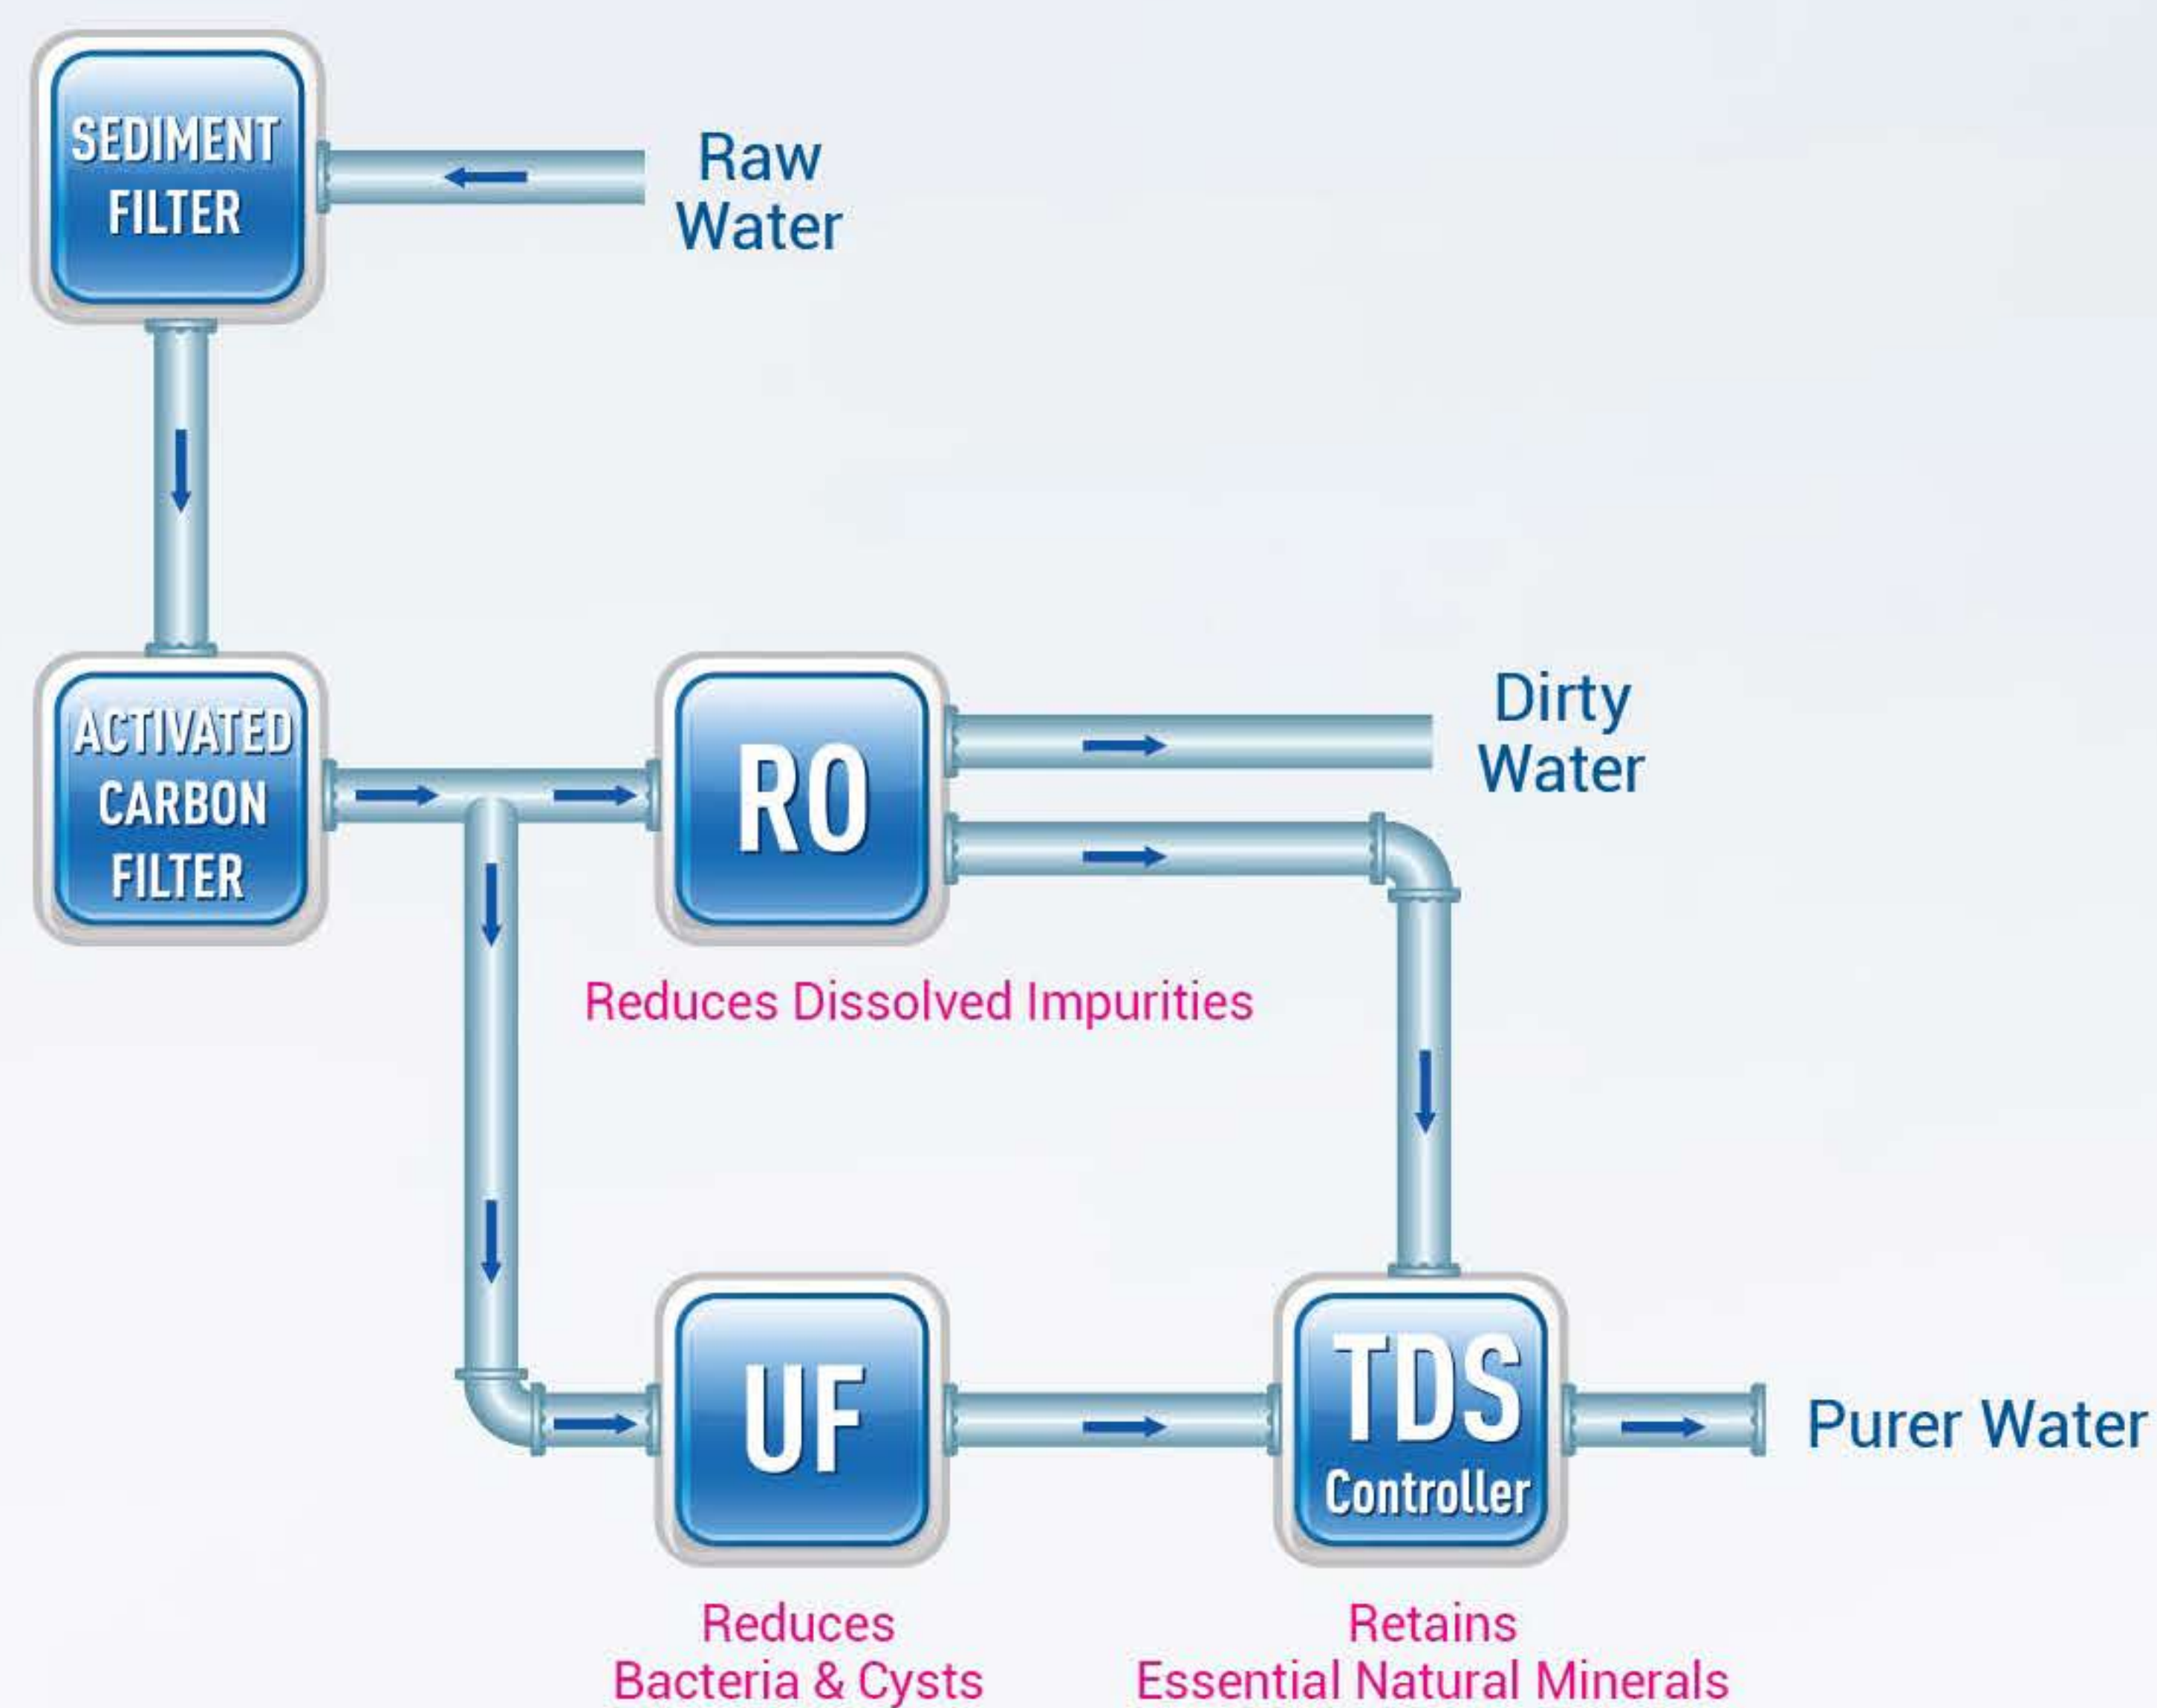

KENT WATER FOUNTAIN

– CHILLER CUM IN-BUILT RO WATER PURIFIER

KENT is proud to present KENT Water Fountain. Unlike conventional water dispensers fitted with an external water jar, KENT Water Fountain has an in-built RO purifier. It lets you bid goodbye to the plastic bottles and drink the purest water, while also saving money and the environment.

KENT'S INNOVATIVE TECHNOLOGY TO MAKE PUREST DRINKING WATER

KENT Water Fountain is based on a cutting-edge technology of water purification which broadly comprises of a RO+UF+TDS control system to make water 100% pure, by removing bacteria and viruses.

CHILLED WATER ON DEMAND

KENT Water Fountain uses the Next-Gen technology of Inline Water Cooling system with Ice Bath that gives you chilled water instantly on demand, free from contamination as the purifying system is in air-free hydrostatic tank.

ELEGANT DESIGN

KENT Water Fountain is made of a solid stainless steel body that along with the black granite top gives the design a chic edge.

NEXT GEN WATER PURIFICATION

CHILLING & DISPENSING SYSTEM

KENT Water Fountain is a revolutionary one-of-its-kind product that is sure to change the way we drink water when away from home. Each of its features is well thought of and designed to fulfill all the purity requirements, and thereby make it the perfect water purification solution for public places.

KENT WATER FOUNTAIN ADVANTAGES

KENT Water Fountain comes with an array of advantages that makes it the best choice in the category.

Purifies water from all sources – Be it the overhead tank or the tanker

Backed by patented KENT technology, KENT Water Fountain is capable of purifying all kinds of water. Once installed, you don't need to worry about the sorry state of water supply anymore. Just fit it in and enjoy 100% pure water at all times.

KENT seal of trust

Known for its commitment towards quality, all over the world, KENT has to its credit, quality awards from the world's top quality laboratories. It has also been adjudged as Asia's most promising water purifier brand in research conducted by KPMG, commissioned by WCRC, Dubai. No wonder, people trust KENT with their eyes closed.

Stainless Steel body for durability & hygiene

Unlike conventional water dispensers, which don't last for more than four to five years and are not hygienic. KENT Water Fountain's stainless steel structure ensures that the device makes water pure and safe, for long duration.

Low maintenance & running cost

KENT Water Fountain has proved to be very economical in the long run. You can ensure that people have access to pure drinking water.

Freedom from plastic bottles

Plastic bottles are not only bad for health but also dangerous for the environment. With KENT Water Fountain, get freedom from the use of harmful plastic water bottles.
