

KENT

Vegetable

Purifier

HOUSE of PURITY

Removes Pesticides,
Insecticides and Farm
Chemicals from Vegetables,
Fruits and Meat.

Cleaning Fruits and Vegetables.

In today's times, vegetables and fruits are laced with insecticides, pesticides and other harmful chemicals. These chemicals. these4 chemicals can harm us and cause several hazardous diseases like cancer, and liver, kidney and lung ailments. Merely rinsing them with tap water doesnot wash away the impurities and thus, it has become essential for us to clean the fruits and vegetables with specialised processes.

Presenting KENT Ozone Technology to Clean Fruits and Vegetables.

KENT introduces its latest product - KENT Vegetable Purifier. This advanced purifier produces Ozone gas, which has the exceptional power to kill bacteria, viruses, fungi and other pathogens. It sterilizes the surface of vegetables and fruits, cleans them gives you a taste of purity and health that is hard to match.

Remove Insecticides and Pesticides from Fruits and Vegetables in five easy steps.

1
Fill up a big bowl with water and put vegetables and fruits in it

2
Put the Kent Vegetable Purifier nozzle in the bowl

3
Switch on and select 15/30 mins mode as per the quantity

4
Empty the bowl and rinse vegetables and fruits with water

5
Clean fruits and vegetables are ready for consumption
