INTRODUCTION

We, at KENT have always believed that a clean and healthy life is the right of every individual. This ethos is what made us embark on the journey to develop innovative solutions for purifying the water that we drink, vegetables and fruits that we eat, the homes we live in and the air that we breathe.

Our use of innovative technology, supported by a competent service network, has enabled us to create a brand, which has become synonymous to well-being. Continuing with the tradition, we now present the all new KENT Zip Stainless Steel Electric Kettle, a modern day appliance for boiling water. The stainless steel heating plate makes heat distribution efficient and the stainless steel body ensures durability and good heat retention.

With a capacity of 0.5 litres it is suitable for heating water to serve a nice hot cup of tea or coffee. And on top of it all, its removable cover makes multipurpose cooking easy.

FEATURES OF KENT ZIP STAINLESS STEEL KETTLE

1. Electric Kettle with a 0.5 L capacity.
2. Electric Kettle with a power of 1000 W.
3. Concealed stainless steel heating plate for effective heat distribution.
4. Grade 304 stainless steel inner body.
5. Automatic switch off function.
6. Protection against overheating and dry-boiling.
7. High class seamless/full connect body & big mouth design makes it easy to clean and operate.
8. Removable cover for multipurpose cooking.

KNOW YOUR PRODUCT

USING KENT ZIP STAINLESS STEEL KETTLE

- Remove any stickers that might prevent from operating the unit
- Check the unit for damages. Do not use in case of any damage
- Before switching on the appliance, make sure that your home's main voltage corresponds to the unit's operating voltage
- Clean the parts of the KENT Zip Stainless Steel Kettle before using the appliance for the first time (see 'Cleaning & Maintenance' section)
- Make sure all parts are completely dry before you start using the appliance
- Fill the kettle with normal water to the maximum fill mark.
Do not over fill
- Close the lid, place the kettle and switch it on

PROCEDURE FOR USING KENT ZIP STAINLESS STEEL KETTLE

- Fill the kettle with normal water to the desired level and close the lid. Do not over fill. To prevent dry-boiling, please fill at least 250 ml or one cup
- Plug in and switch on the kettle
- The LED will light up
- The water will start boiling in some time. Do not open the lid while water is boiling
- Once the water has boiled, the kettle will automatically switch off
- If boiled water is not required immediately, you may leave the kettle and bring it to boil again later
- Always ensure to turn off the kettle before lifting the kettle

CLEANING & MAINTENANCE

- Unplug kettle before cleaning it
- Gently wipe the exterior with a moist cloth and store dry
- If required, use a mild detergent to remove stains
- Do not use any abrasive or solvent based cleaner
- Never put any part of the appliance in the dishwasher
- Do not immerse the appliance in water or any other liquid
