KENT
Health Care
PRODUCTS

Introduction

We, at KENT have always believed that a clean and healthy life is a right of every individual. This ethos is what made us embark on the journey to develop innovative solutions for purifying the water we drink, vegetables and fruits we eat, homes we live in, and the air we breathe.

With the use of innovative technologies, supported by a competent service network, we have been able to create a brand which has become synonymous for well-being and health.

Continuing with the tradition, we now present the KENT Instant Drinking Water Heater, your ultimate countertop solution for instant hot water. Ideal for tea, coffee, or any hot beverage, this innovative drinking water heater brings convenience and efficiency to your home, kitchen, and office. With its sleek design and user-friendly features, it's a stylish and reliable addition to any space. Make every sip count with the KENT Instant Drinking Water Heater.

Features of KENT Instant Drinking Water Heater

1. Instant hot water, ideal for tea, coffee & hot beverages.
2. Powerful and effective with 2200W - 2600W.
3. Large capacity water tank of 2.2 L.
4. Digital touch screen panel for easy operation.
5. Desired temperature selection from 45° C to 100° C.
6. Desired quantity output from 150 ml to 460 ml.
7. Safety for children, double click to unlock.
8. Clear water tank to check the water level.
9. Elegant design.

Know your product

How to Operate

1. Open the water tank lid and remove the water tank to fill it with purified drinking water.
2. Double tap the "Double click unlock" button to unlock. You will hear a beep sound, indicating that it is unlocked, and the child lock indicator will turn off.
3. After unlocking, press the temperature button to select the desired water temperature. Repeatedly press the temperature button to select from the range of 45° C to 100° C.
4. After selecting the temperature, select the quantity from large cup, medium cup & small cup. It dispenses 360-460 ml for large cups, 250-350 ml for medium cups & 150-250 ml for small cups.

Note: The water output can be influenced with the voltage and room temperature.

Digital touch screen panel

Temperature	Suitable for
100° C	Instant noodles & high temperature tea
85° C	Brewing coffee or black tea
75° C	Mild temperature tea & beverages
65° C	Brewing lemon tea
55-45° C	For making powdered milk or instant drinks

How to descale

1. To maintain optimal performance of this product, it should be descaled every one or two months. It can be more frequent if the water quality is poor.
2. Prepare a descaling solution by mixing 20% edible white vinegar or citric acid (do not use dark vinegar) with 80% warm clean water in a ratio that forms 2 litres of solution. Stir the mixture thoroughly and pour it into the water tank.
3. Heat up the solution and select the water volume and drain the heated solution over the sink.
4. After descaling, add 2 litres of clean water, and let the clean water dispense 1-2 times to get rid of the vinegar smell.

Safety Instructions

In order to prevent damage to the user or others and property damage, be sure to follow each of the following instructions.

1. It is strictly forbidden to use voltage lower than 200V or higher than 240V, and the product must be grounded safely and reliably.
2. Except for professional technicians, it is strictly forbidden to disassemble, repair or modify the machine. Otherwise, it may cause abnormal operation, fire, electric leakage and damage.
3. Do not let children use it. Please place it in a place out of reach of children to prevent children from electric shock, burns or other injuries.
4. It is strictly forbidden to turn it upside down, and the body should not be wet or soaked in water. Otherwise, it may cause electric shock or short circuit.
5. Do not add hot water, milk, tea, coffee, wine, juice, etc. other than cold water into the water tank to avoid malfunctions due to abnormal heating or blockage of pipes.
6. Do not damage, bend, pull, squeeze or bundle the power cord, and do not stack heavy objects on the power cord. Otherwise, it may cause fire or electric shock due to damage to the power cord.
7. Do not submerge the machine in water or expose it to water.
8. If the power cord is damaged, it is prohibited to use, and to avoid danger, it must be replaced by a professional from the manufacturer, its maintenance department or similar department.
9. When cleaning the product body, you must unplug the power cord before cleaning.

Troubleshooting

Problem	Reason	Solution
The machine does not work.	The machine is not switched on. The power switch is not connected properly.	Switch on the power according to the normal operation. Plug in the power again.
The drinking water heater is emitting steam instead of hot water.	The room & water temperature are too high.	Reduce the temperature in the water tank.
The water is not of the desired temperature.	Shortage of water in the tank. Dry-burn prevention is turned off.	Fill the tank with the appropriate water level.
Decreased water output.	Low room temperature tends to reduce the water temperature. The level of scaling is high.	Maintain the temperature and refer to the scale treatment method.

TERMS & CONDITIONS OF WARRANTY

KENT warrants all new products manufactured by it to be free from defects in material and workmanship under normal usage and service from the date of purchase as under:

1. The Warranty period commences from the date of purchase by the first end-user. During this Warranty period of one year, KENT or its Authorised Service Provider (ASP) will replace or repair any part of KENT Instant Drinking Water Heater, that in the opinion of KENT or its ASP, would be defective in operation due to faulty material or workmanship (i.e. manufacturing defects) with the exception of consumables.
2. The product's plastic body is not covered under Warranty and hence, it must be handled with care to guard against breakage.
3. The original purchaser of the unit can avail services under Warranty at the point of sale by producing the damaged part(s) along with the original invoice.
4. This Warranty is void if the unit is not operated under normal conditions or according to the instructions given in the manual.
5. Product returned to KENT or its ASP for Warranty examination must be shipped freight prepaid.
6. KENT or its ASP shall not be held liable for claims exceeding the cost of repair of the defects in workmanship.
7. This Warranty Agreement shall not be interpreted to render KENT or its ASP liable for injuries or damages of any kind - direct, consequential or contingent to persons or property.
8. KENT or its ASP shall not be held responsible by representative or buyer for failure to abide by any of the obligations of this

Warranty Agreement, if such failures are the result of circumstances of Forces Majeure such as (but not limited to), floods, earthquakes, transportation strikes, labour disputes with outside suppliers or any other conditions beyond the control of KENT or its ASP.

9. KENT or its ASP shall not be held liable for repair or alterations made without prior written approval for product failures resulting from the lack of proper maintenance.
10. This Warranty Agreement excludes all products/component parts or damage to any part of this KENT Instant Drinking Water Heater which in the opinion of KENT or its ASP have been subjected to misuse; misapplication; negligence; alteration; accident or operation contrary to our instructions. Incompatibility with accessories not installed by KENT or its ASP, or that have been repaired with component parts other than manufactured by or obtained from KENT or its ASP. Damage caused by freezing, flood, fire or Act of God is not covered by this Warranty. In all such cases, regular charges will apply. This limited Warranty does not include service to diagnose a claimed malfunction in this unit.
11. KENT reserves the right to alter or improve design and specifications at any time, without any contingent obligations to prospective buyers or owners of the products previously sold.
12. Any disagreements and obligations based upon the purchase of KENT products and thereby imposed on KENT or its ASP shall be governed by and construed according to the laws of INDIA and subject to the jurisdiction of Delhi Courts only.

13. KENT or its ASP assumes No Warranty liability in connection with this KENT Instant Drinking Water Heater other than that specified herein. This Warranty is in lieu of all other warranties, expressed or implied, including warranties of fitness for a particular purpose. KENT or its ASP does not authorise any person or representative to assume for them any other obligations on the sale of this KENT Instant Drinking Water Heater.
14. Under no circumstances, the liability of KENT or its ASP shall exceed the value of the product.
15. Under no circumstances are the terms mentioned above negotiable and no employee of KENT or its ASP has the authority to supersede them.
