For Purity & Performance of the RO Water Purifier

Purity monitor with water quality display

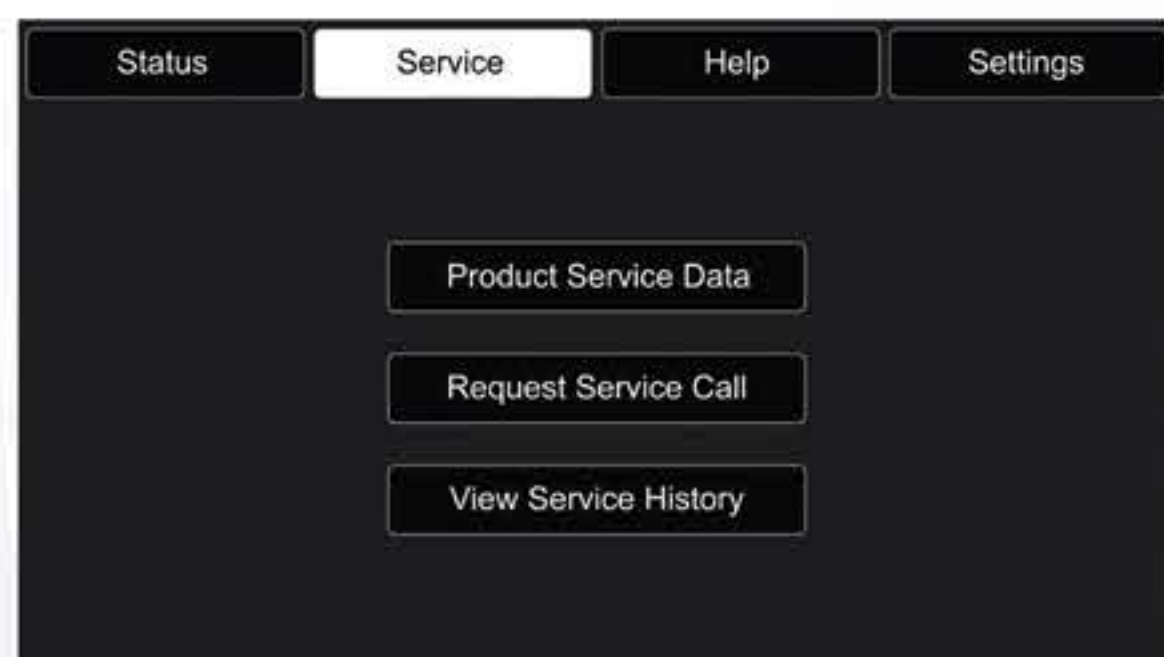

Filter life

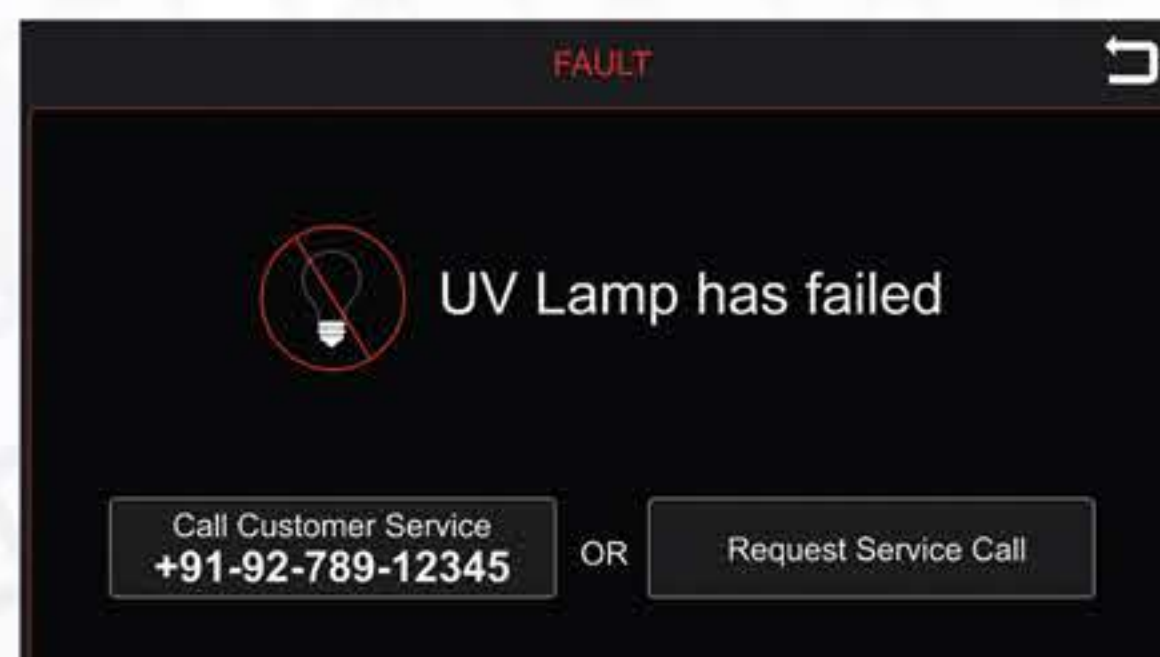

Pure water flow rate

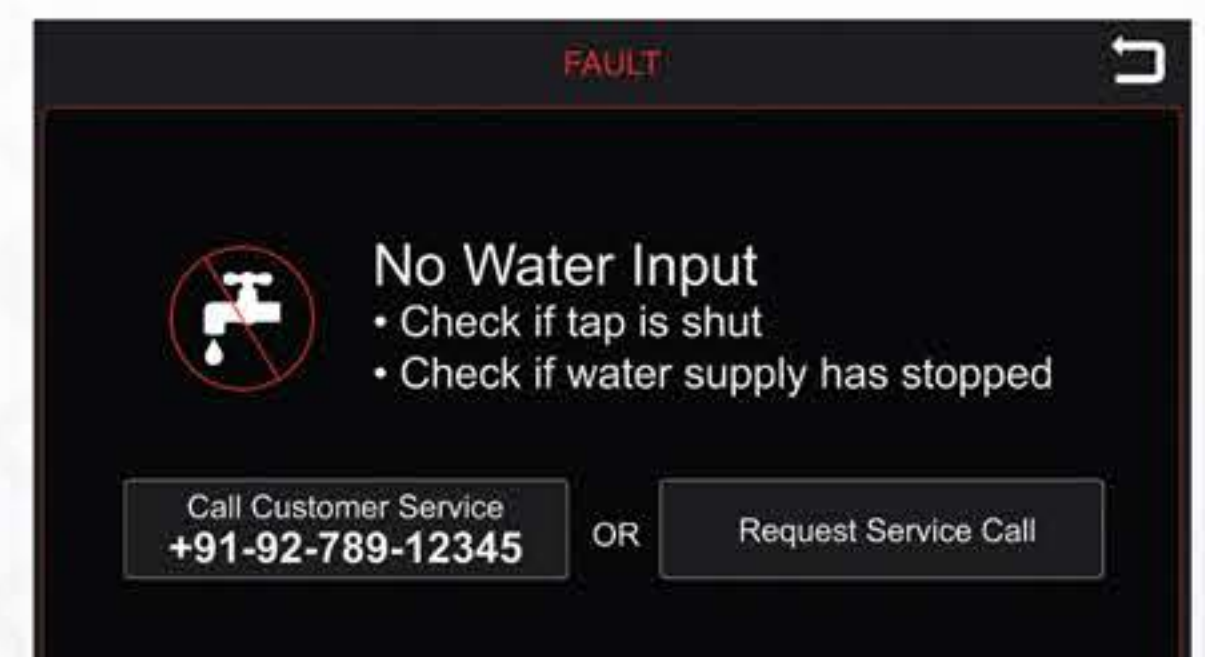

Service record

UV lamp failure

No water input

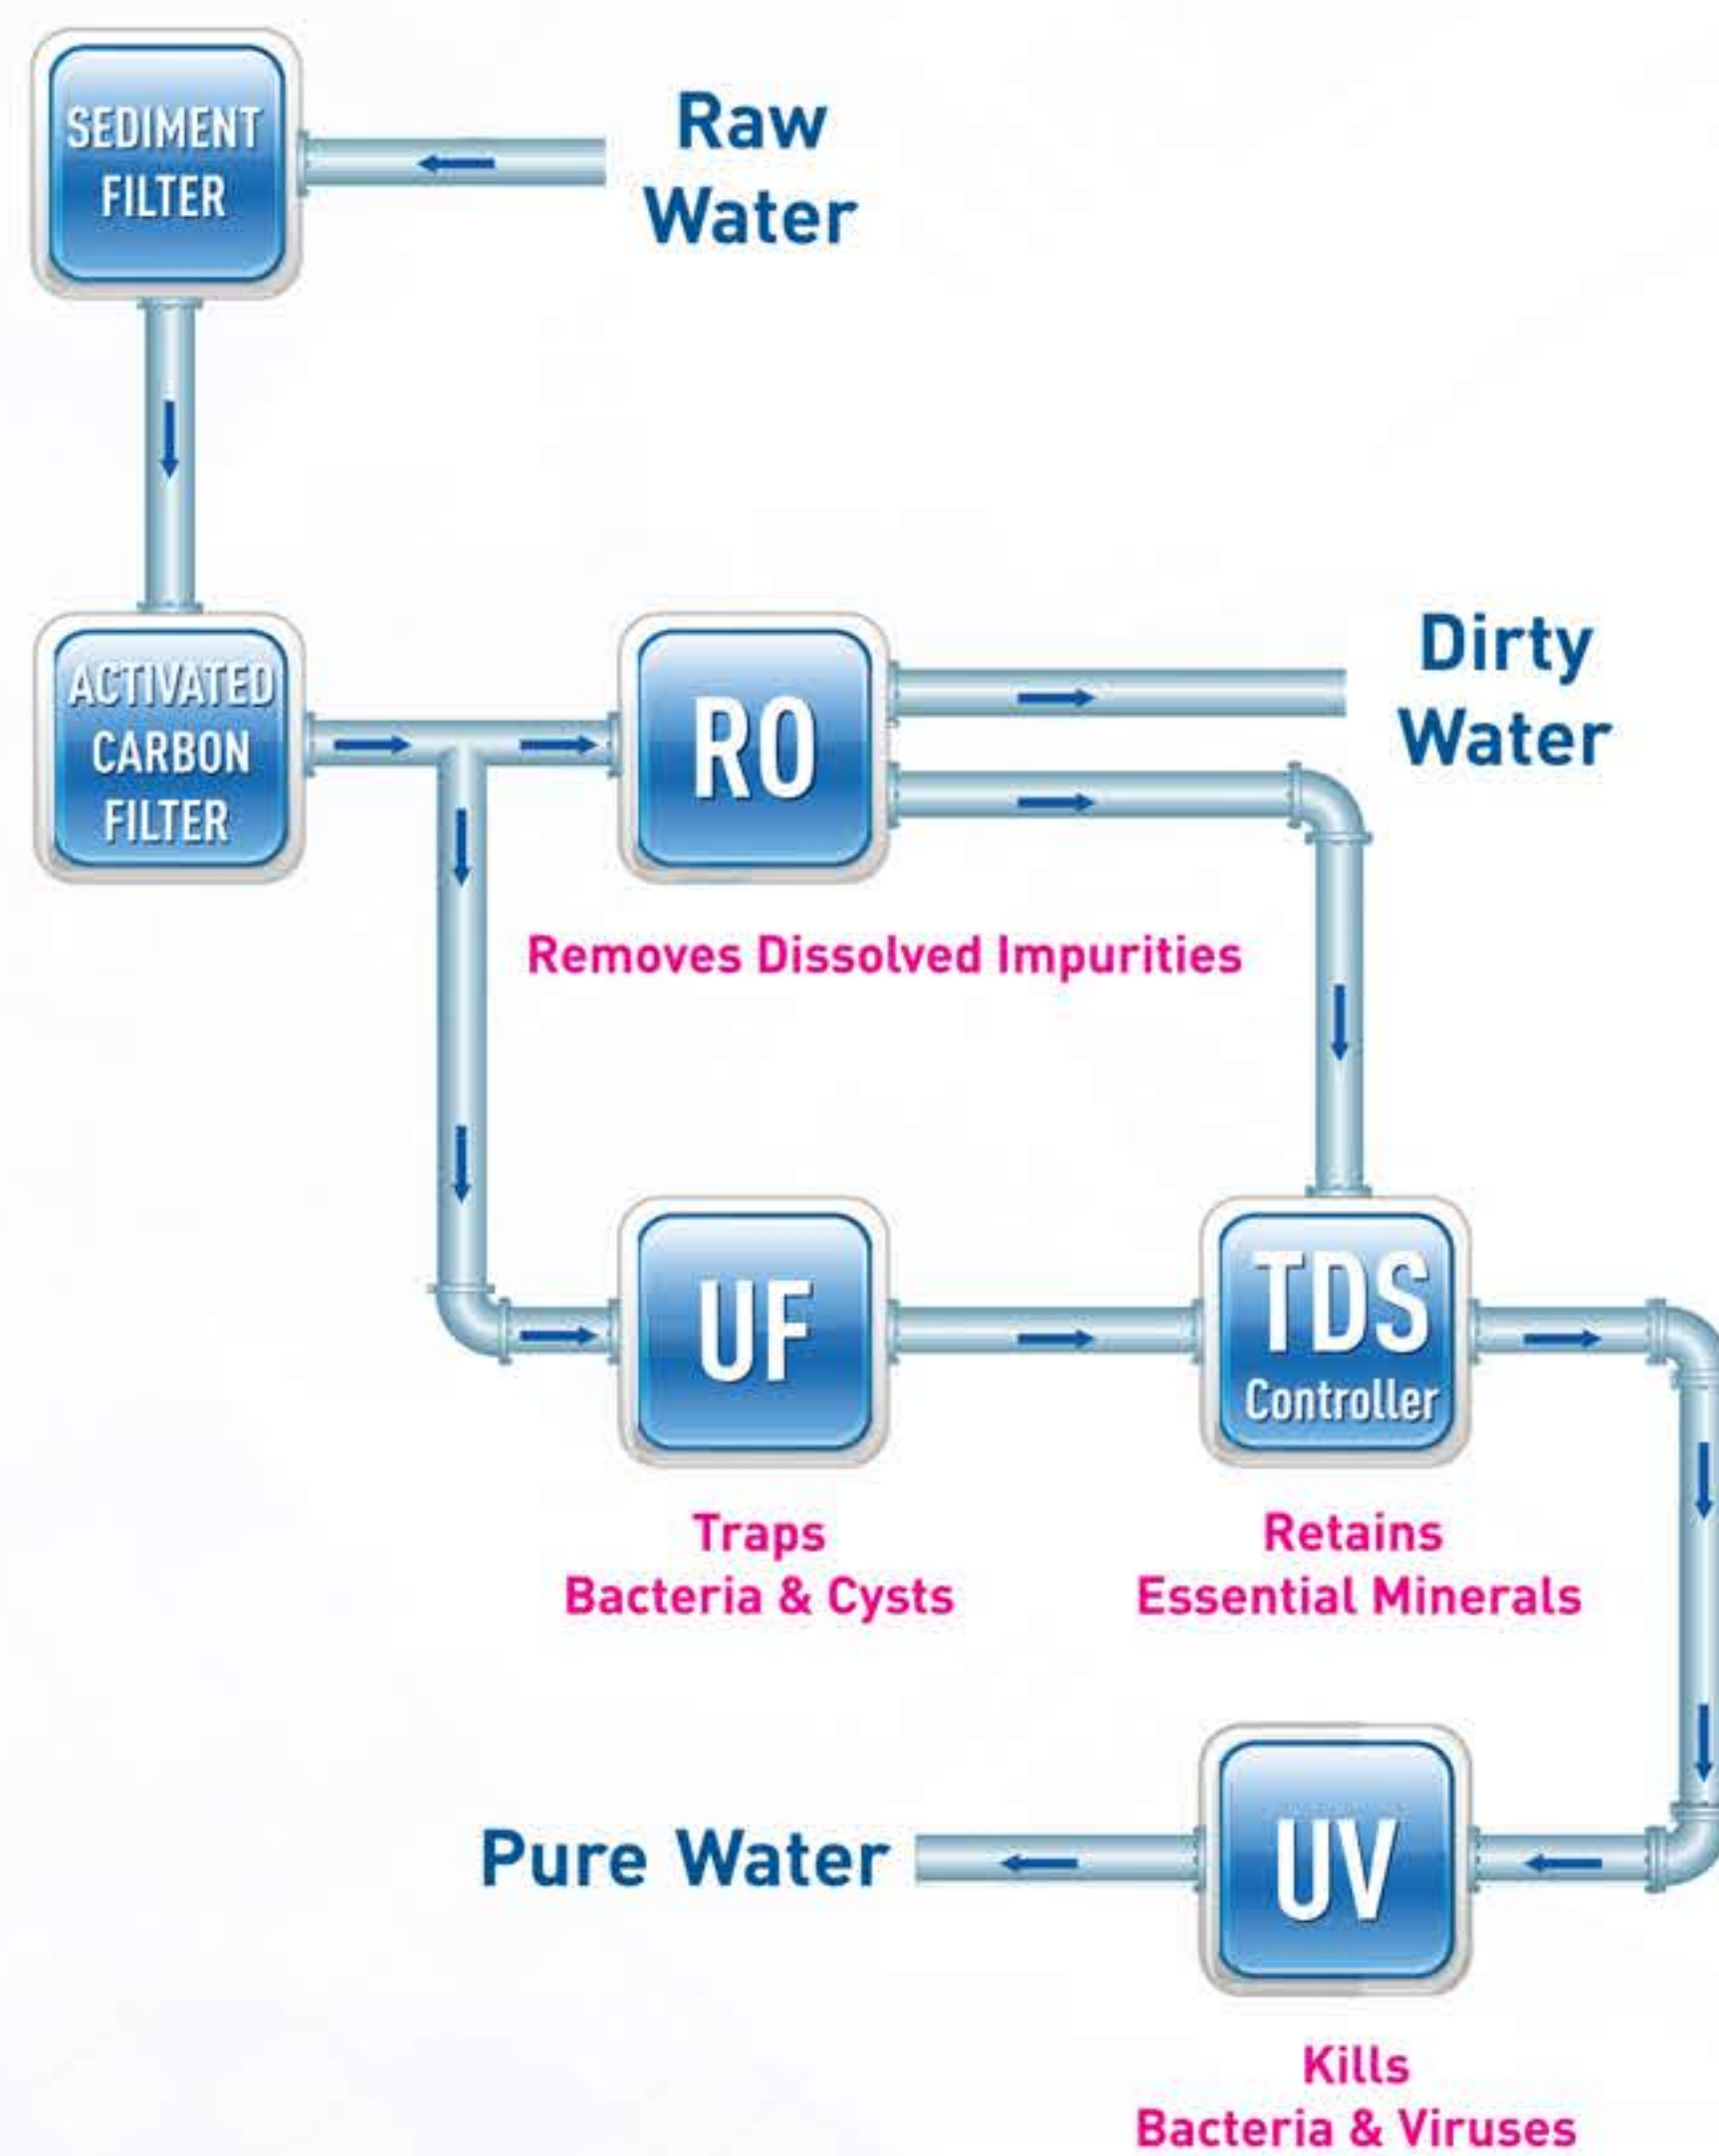

And many more displays.

Water is the essence of life. With alarming levels of contamination, the quality of water keeps deteriorating immensely. Water nowadays contains several pathogens like bacteria, viruses, cysts, and dissolved impurities such as Arsenic, Rust, Fluoride and Heavy Metals, and these are known to cause serious diseases. Normal UV Purifiers may kill bacteria and viruses but fail to remove dissolved impurities. Whereas RO purifiers may remove dissolved impurities, but they also remove essential natural minerals thus making purified water absolutely lifeless. What is required is a better technology for pure and healthy drinking water.

KENT SUPERB

KENT Mineral RO Purifiers provide an ideal water purification technology which removes dissolved impurities while retaining essential minerals in the purified water. As visionaries of the future we introduce, KENT Superb Mineral Water Purifier-World's First Smart RO Purifier. KENT Superb is equipped with KENT patented double purification technique of RO+UV+UF+TDS control for purification. Being first of its kind, touch operated Smart RO Purifier-SUPERB; has an inbuilt micro-controller which senses water quality on real time basis and displays it on the digital screen. It also provides notifications to keep you updated about balance filter life, UV lamp. KENT Superb Mineral Water Purifier, ensures that you drink the safest and purest water in the world.

Salient Features:

- Interactive touch screen display.
- Real time monitoring of purity, performance and service history.
- Wall-mounted KENT Technology RO Water Purifier.
- Purification by RO + UF + UV + TDS Control.
- 9 L illuminated storage tank with water level indicator.
- High purification capacity of 15 L/hr.

KENT RO TECHNOLOGY

Maintains minerals while reducing dissolved impurities with double purification

RO + UF + UV + TDS Control

Technical Specifications

MODEL NAME	KENT SUPERB
Product Code	11037
Product	Water Purifier With Ultra Violet Disinfection
Applications	Suitable for Purification of Brackish / Tap Water / Municipal Corporation Water
Purification Production Rate	15L / hr. or 0.25L / min*
Body Material	ABS Food Grade Plastic
Mounting	Wall-Mounting
Dimensions (mm)	L 410 × W 260 × H 520
Inlet Water Pressure / Temp (Min)	0.3 kg / cm ² or 4.267psi / 10°C
Inlet Water Pressure / Temp (Max)	3 kg / cm ² or 42.67psi / 35°C
Filter Cartridge	Sediment, Carbon Block Filter, UF and Post Carbon
UV Lamp Wattage	11 W
Life of UV Lamp	1 Year
Weight	8.600 kg.
Storage Capacity	9 L
Maximum Duty Cycle	75 L / day
Membrane Type	Thin Film Composite RO
Booster Pump Voltage	24V DC
Total Power Consumption	60 W
Input Power Supply	Single Phase 220 ± 10V AC, 50Hz 
Display	Interactive Touch Panel
Display of	Purity/Filter life/Water flow rate
MRP	₹25,000/-

* Treatment capacity tested for tap water having TDS level of 750ppm at room temperature.
