Introduction

We, at KENT have always believed that a clean and healthy life is a right of every individual. This ethos is what made us embark on a journey to develop innovative solutions for purifying water we drink, vegetables and fruits we eat, homes we live in and the air we breathe.

With use of an innovative technology and supported by a competent service network, we have been able to create a brand which has become synonym for well-being and health.

Continuing with the tradition, we now present the KENT Turbo Grinder & Blender, a new age high speed blender for home.

With this appliance, you can crush ice, prepare soup, soy milk and dosa batter in seconds.

Error	Status	
E1	Thermistor disconnected	
E2	E2 Thermistor short circuited	
E3	Over heat	
E4	Jar lid not secured properly	

WARNINGS

- Before using the appliance ensure that the lid is secured properly. If its not secured properly, the appliance would not start.
- 2. Wash the glass jar from inside only and not from the outside. It should not be washed from outside as the water might sweep inside the control panel and damage it.
- 3. The ingredients quantity should not exceed the maximum level. Doing so would result in a spill over.
- 4. The glass jar need to be handled with care. It will break if it is dropped.

FUNCTION SELECTION

KENT Turbo Grinder & Blender comes with preset menu for quicker operation.

1. Juice: Preparation time 2 minutes

Put chopped fruits in the jar. Add some water to your choice. Put the lid and secure it properly. Select 'Juice' function. Press 'Start'. The juice should be ready in about 2 minutes.

2. Milk Shake: Preparation time less than a minute

To prepare yum and tasty shakes, wash and chop fruits. Put them in the jar. Add some milk & ice. Put the lid and secure it properly. Select 'Milk Shake' function. Press 'Start'. Milk shake should be ready in about 55 seconds.

3. Smoothie: Preparation time less than a minute

To prepare smoothie, put chopped fruits in the jar. Add ice (to your choice) and water or milk. Put the lid and secure it properly. Select 'Smoothie' from the menu. Press 'Start'. The refreshing smoothie should be ready in about 20 seconds.

4. Ice Cream: Preparation time less than a minute

Put some frozen fruit, cream and ice into the jar (to your choice). Put the lid and secure it properly. Select 'Ice-cream' from the menu. Press 'Start'. Use Push Rod to push the ingredients. Ice cream should be ready in 55 seconds.

5. Soy Milk: Preparation time half an hour

Put washed soya-bean, preferable overnight soaked (around 60 grams) in the jar. Add 1.4 liter of water. Put the lid and secure it properly. Select 'Soy Milk' function from the menu. Press 'Start'. Soy milk should be ready in 30 minutes.

6. Herb Tea: Preparation time 12 minutes

To prepare herb tea, add water in the jar. Place the lid and secure it properly. Select 'Herb Tea' function from the menu. Press 'Start'. The water would start to heat up. When water temperature reaches 98°C, add herb tea leaves by opening the removable cap. The herb tea should be ready in about 12 minutes.

7. Porridge: Preparation time around half an hour

To prepare porridge, put around 60 to 90 grams of whole grains and water in jar. Add other ingredients like milk, sugar (to your choice). Place the lid and secure it properly. Select 'Porridge' from the menu and press 'Start' to make porridge. The porridge should be ready in about 30 minutes.

8. Soup: Preparation time around 20 minutes

Wash and cut vegetable of your choice and put them in the jar. Add water (as required). Place the lid and secure it properly. Select 'Soup' from the menu and press 'Start' to make Soup. The soup should be ready in about 20 minutes.

9. Powder: Preparation time less than a minute

Put the ingredients for which powder is required in the jar (the maximum quantity should not exceed 500 grams). Place the lid and secure it properly. Select 'Powder' function from the menu. Press 'Start'. The grinded powder should be ready in about 45 seconds.

10. Dosa Batter: Preparation time less than 5 minutes

To prepare dosa batter, add overnight soaked rice and dal in right quantities (not exceeding 500 grams). Add water to your choice. Place the lid and secure it properly. Select the 'Dosa Mix' function, and press 'Start'. The unfermented dosa batter should be ready in around 4 minutes.

11. Chopped: Preparation time less than a minute

To make minced meat add 500 grams of clean and washed meat in the jar. Place the lid and secure it properly. Select 'Chopped' function from the menu and press 'Start' button once. The freshly minced meat should be ready in around 20 seconds.

12. Steam Cooked: Preparation time 20 minutes

Put washed ingredients in the jar. Add water. Place the lid and secure it properly. Select 'Steam Cooked' function from the menu and press 'Start' key once. Steam cooked vegetables should be ready in 20 mins.

Note:

- In case you wish to add sugar (applicable for item number 1-7), use pulse key for mixing it after the
 expiry of the set time.
- Ingredients added beyond maximum level will cause a spill over.

TIPS

Prepare hot and yum soup:

- Potato not more than 320g.
- 2. Tomato not more than 280g.
- 3. Other vegetables around 30-50g of each style.
- 4. Meat or poultry (without bones) not more than 20-30g.

CLEANING & MAINTENANCE

- 1. Switch off and unplug the appliance and wait for it to cool down before cleaning it.
- 2. Remove the lid and clean the glass jar from inside with warm water and soap solution. Use cleaning brush. Never use scouring pads to clean it.
- 3. Wipe the main unit with a moist cloth and non-abrasive liquid cleaner.
- 4. Do not immerse the appliance in water or any other liquid.
- 5. Never put any part of the appliance in the dishwasher.
- 6. After cleaning it thoroughly, dry it using a soft cloth.
- 7. Ensure that the appliance is completely dry before storing it.

Note: Never immerse the motor unit of the Turbo Grinder & Blender in water, nor rinse it under the tap. Wipe it with a dry cloth.

PRECAUTIONS

- 1. Do not disassemble, repair or alter the appliance on your own. It may cause appliance failure or breakdown.
- 2. The input voltage must not exceed the rating; it might damage the appliance.
- 3. Unplug before replacing the cleaning/moving the appliance.
- 4. Do not use the appliance with damaged power cord or plug.
- 5. If power cord is damaged, replace it with a genuine KENT spare.
- 6. Do not install the appliance near any heat source, e.g., heater.
- 7. If the appliance is not to be used for long time, unplug it.
- 8. Do not sit on, stand on or shake the appliance.
- 9. Do not use the appliance when it is in recumbent or inclined position.

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precaution should always be followed, including the following:

- 1. Unplug, when not in use and before servicing.
- 2. To reduce the risk of electric shock, do not use near or on wet surfaces.
- 3. Use the appliance only as described in the manual.
- Do not use the appliance if cord or plug is damaged or worn out. Replace the damaged cord or plug immediately.
- 5. Do not try to service the appliance on your own. Send it to an authorized service center only.
- 6. Keep cord away from heated surfaces.
- 7. Do not unplug the appliance by pulling the cord. Always unplug by pulling the plug and not the cord.
- 8. To avoid electric shocks, do not use the appliance with wet hands.
- 9. Keep hair, loose clothing, fingers and all parts of the body away from moving parts.
- 10. Turn all controls off before unplugging.
- 11. This appliance is suitable for Indoor use only.
- 12. Keep away from children.
- 13. The appliance is not designed to be used by people who, are physically or mentally disabled, mentally handicapped, lack of relevant experience and knowledge, unless a person responsible for their safety uses the product for supervision or guidance.
